Mr. Dan Richard  
Chair  
High-Speed Rail Authority Board  
770 L Street, Suite 800  
Sacramento, CA 95814

RE: Proposed Proposition 1A High-Speed Rail Passenger Train Bond Program Amendment

Dear Chair Richard:

As requested by your letter dated February 17, 2012 to Commissioner Dario Frommer, then Chair of the California Transportation Commission (CTC), the CTC has worked collaboratively with the High-Speed Rail Authority (HSRA), the Department of Transportation, the Business Transportation and Housing Agency, the Department of Finance and regional/local transit and commuter rail agencies to propose a revised program of projects for the Proposition 1A Connectivity funds.

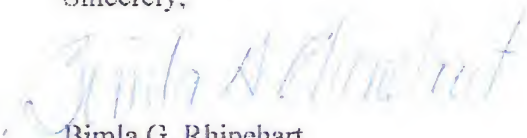

CTC staff requested that the Department and the regional/local agencies propose projects consistent with the blended approach identified in the HSRA's revised 2012 Business Plan and consistent with the Regional Memorandums Of Understanding that the agencies have been negotiating with HSRA. Eleven new or revised project proposals were submitted. CTC staff worked with all of the above mentioned agencies to address any questions and concerns regarding the proposed projects, with the revised projects detailed in the attached documents.

I strongly feel that this cooperative effort has resulted in a mutually beneficial proposal that furthers the blended approach identified in the 2012 Business Plan and is consistent with the Governor's vision for High-Speed Rail in California.

Mr. Dan Richard  
June 8, 2012  
Page 2

In anticipation of approval of proposed budget bill language requiring, among other things, that CTC staff present the draft program of projects to HSRA at a scheduled board meeting, I requested that you place an item on your next meeting agenda. I appreciate this opportunity to present the attached proposal to the HSRA Board and receive any suggestions or comments you may have. If you have any questions, please do not hesitate to contact me at 916-654-4245.

Sincerely,

Bimla G. Rhinehart  
Executive Director

# Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: June 27-28, 2012

Reference No.: 4.9  
Action

From: BIMLA G. RHINEHART  
Executive Director

Subject: **PROPOSITION 1A – HIGH-SPEED PASSENGER TRAIN BOND PROGRAM AMENDMENT  
RESOLUTION HST1A-P-1112-01**

## **ISSUE:**

The California Transportation Commission (Commission) adopted High-Speed Passenger Train Bond Program (Prop 1A Connectivity) guidelines in February 2010, in cooperation with the California Department of Transportation (Department), the High-Speed Rail Authority (HSRA) and regional/local agencies, and the initial Prop 1A Connectivity Program of projects in May 2010 (with amendments in September 2010 and March 2011.)

HSRA has released a revised 2012 Business Plan detailing a phased strategy for building the high-speed rail system blended with existing rail systems throughout the state. After discussion with HSRA and the Administration, Commission staff committed to work with the Department and regional/local transportation agencies to review and amend the existing program, consistent with the existing guidelines and the revised 2012 Business Plan's blended system strategy.

On April 6, 2012, staff requested Prop 1A Connectivity recipients to apply (or re-apply) for projects that are consistent with the 2012 Business Plan, in addition to being consistent with the existing guidelines. As of June 1, 2012, eleven applications have been received. Some concerns were identified, and staff worked with HSRA, the Business, Transportation and Housing Agency, Department of Finance (DOF), the Department, and regional/local agencies to address concerns in order to bring forward a mutually beneficial program of projects. In anticipation of approval of budget bill language requiring Commission staff to present the proposed program to the HSRA Board, staff presented the attached program of projects to the Board at their meeting held on June 8, 2012 for their review and comment.

Three of the proposed projects include Prop 1A Connectivity funds for pre-construction. One is proposed for less than 5% and two are proposed for 10% for pre-construction. Guidelines allow 5% for pre-construction and up to 10% with Commission approval.

**RECOMMENDATION:**

Staff recommends the Commission adopt the attached High-Speed Passenger Train Bond Program amendment, including existing, revised and new projects, in accordance with Resolution HST1A-P-1112-01.

**BACKGROUND:**

The Safe, Reliable High-Speed Passenger Train Bond Act for the 21<sup>st</sup> Century approved by the voters as Proposition 1A on November 4, 2008, authorized the California Transportation Commission, upon appropriation by the Legislature, to allocate funds for capital improvements to intercity rail lines, commuter rail lines and urban rail systems that provide direct connectivity to the high-speed train system or that provide capacity enhancements and safety improvements. The Commission is required to program and allocate the net proceeds received from the sale of \$950 million in bonds authorized under Proposition 1A for the High-Speed Passenger Train Bond (Prop 1A Connectivity) Program.

As required by Streets and Highways Code, Division 3, Chapter 20, Section 2704.095, the Commission adopted Program guidelines in February 2010. The initial program of projects was approved in May 2010, with amendments in September 2010 and March 2011. The Administration supported only the Positive Train Control (PTC) safety projects in the program, and vetoed appropriations accordingly. The Administration directed that projects should instead be programmed and built consistent with a comprehensive statewide rail plan.

HSRA completed and released a revised 2012 Business Plan in April 2012. This plan details a phased strategy for building the high-speed rail system blended with existing rail systems. HSRA, in a letter to the Commission Chair, proposed that the Commission partner with HSRA, the Department and regional/local transportation agencies to develop an integrated and mutually beneficial programming proposal consistent with this revised plan and the existing guidelines. The Commission committed to working with all interested parties to bring a revised program of projects forward for approval at the May or June 2012 Commission meeting.

**RESOLUTION HST1A-P-1112-01**

Be it Resolved, that the California Transportation Commission does hereby amend the Proposition 1A High-Speed Passenger Train Bond Program in accordance with the attached as requested by the Department of Transportation Division of Rail and the Regional Transit and Commuter Rail Agencies and reviewed by the High-Speed Rail Authority Board at its meeting on June 8, 2012.
